RE: APPLICATION FOR IT SUPPORT SPECIALIST / JUNIOR SOFTWARE DEVELOPER POSITION

Dear Hiring Manager,

I am writing to express my strong interest in an IT Support, Technical Operations, or Junior Software Development position within your organization. As a highly adaptable Information Technology student at KCA University (Cumulative GPA: 3.42, B+ Average) with hands-on training in hardware maintenance, network configuration, software development, and desktop publishing, I am prepared to add immediate, reliable value to your team.

My academic coursework and practical training align directly with daily technology operations:

- **IT Support & Network Administration:** Trained in PC assembly/disassembly, hardware troubleshooting (RAM, SSD/HDD, PSU), OS installation and formatting (Windows & Ubuntu Linux), remote support, Network Design and Setup (Grade A), and Structured Cabling (Grade B+).
- **Software, Web & Databases:** Strong academic performance in Web Design (Grade A), Human-Computer Interaction (Grade A), Java OOP (Grade A-), Database Systems & SQL (Grade A-), and C Programming (Grade B+), supported by Git, GitHub, Vercel, and VirtualBox.
- **Live E-Commerce & Business Solutions:** Independently consulted with a business owner to solve a payment bottleneck by building and deploying a responsive e-commerce website (*First Class Perfume*) with an integrated WhatsApp ordering workflow for direct customer chats and M-Pesa payments.

Furthermore, I am fluent in English and Swahili and placed 2nd Nationally at the Junior Achievers Kenya competition in Mombasa, demonstrating strong teamwork, business acumen, and presentation skills under pressure.

I have attached my updated CV for your review and welcome the opportunity for an interview at your earliest convenience. Thank you very much for your time and consideration.

Sincerely,

Rebecca Nabusambya Manyasi
