Subject: IT and Marketing Position - Nairobi - Rebecca Manyasi

Dear Hiring Manager,

I am writing to express my strong interest in the IT and Marketing position at Finetouch Africa. As an IT student at KCA University (GPA 3.42) with a versatile background in hardware maintenance, web development, and digital design, I am confident in my ability to handle the diverse responsibilities of this role.

Your job description requires a candidate who can manage office IT infrastructure, maintain the company website, and create digital marketing content. My academic and practical training aligns perfectly with these needs:

- **IT Support & Network Administration:** Through my coursework in Principles of Computer Support and Maintenance, I am trained to assemble hardware, format operating systems (Windows/Linux), and troubleshoot network issues to ensure your office runs smoothly.
- **Website Maintenance:** I have hands-on experience building and deploying responsive websites using HTML, CSS, and Vercel. I recently built a live e-commerce website for a small business, integrating a WhatsApp ordering system to solve their payment challenges.
- **Marketing Media:** I am currently completing my coursework in Desktop Publishing (DTP), which has equipped me with the skills to design, format, and create professional digital assets and marketing materials.

Furthermore, I am a highly organized and bilingual professional (fluent in English and Swahili). I placed 2nd in Kenya at the Junior Achievers national competition, which sharpened my business acumen, marketing strategy, and ability to collaborate under pressure.

I have attached my CV for your review. I am available for an interview at your earliest convenience and eager to contribute to Finetouch Africa's growth.

Thank you for your time and consideration.

Sincerely,

Rebecca Nabusambya Manyasi
